

CALL FOR ILLUSTRATOR/ DESIGNER

For the Peace Education in Practice online course

Background:

SCI is dedicated to promoting a culture of peace and peace education is an essential part of it. To better support people all around the world to connect peace to their daily life and work, we are currently developing an online course focusing on Peace education in Practice.

Our ambition is to develop an online course that is visually attractive and user-friendly, allows for flexibility in learning, integrates videos, and offers easy group interaction and peer support. There will be 6 main modules/chapters: Introduction to Peace, Inner Peace, Interpersonal Peace, Society and Politics, Nature/environment and Facilitation of learning. We estimate the total volume of the content for the online course as an equivalent of 70 pages of text.

To support the design/ visual aspect of the online course, we are looking for an illustrator who will join us in our endeavor.

The theme:

A broader idea is to link the different modules with a story of a traveller. We imagine the traveller as a creature who is curious and travels with a backpack through different modules, trying to collect knowledge and share experience.

We are looking for a person who:

- Has experience illustrating publications/content for online platform of a similar length/style
- Is flexible and willing to work in a communicative process with the project team, including Skype meetings at important points of the process during the months of September, October and November 2020
- Ability to communicate in English
- (Ideally) has some familiarity with the topic of peace, and/or with the work and values of SCI

What we can offer:

- Service contract and payment for services, for an amount to be agreed.
- The opportunity to be involved in the creation of a resource that will support people practicing peace and peace education.
- High visibility of your work within the movement and for youth and volunteer organisations beyond SCI.

How to apply:

If you are interested in using your design/illustration skills to support this project, please send a **sample of your work**, a **quote** (what you would normally expect to be paid for such work) and a **draft proposal of a creature/character for the online course** to **Hannah** at volunteer@sci.ngo by **25th August 2020**.

The development of the Peace education in Practice online course is a key part of SCI's Work Plan 2020 – Peace in Practice: supporting young people to become peace envoys. This project has been financially supported by the European Youth Foundation of the Council of Europe.
